ID PAL™ Labeling Tool

Brady's ID PAL™ is an affordable, easy to use, portable thermal transfer printer designed for the field, not the office. The rugged design has been tes to withstand harsh environments and a tough 4 foot drop test to concrete. ID PAL uses Brady high performance labeling materials. The labels stick lon and stronger on tough to adhere to surfaces, from wire and cable to highly textured plastic. As a result ID PAL eliminates the confusion caused by fade smeared or poorly written labels, or labels that fall off leaving unidentified wires.
